

In the Drawings:

A replacement copy of **Figure 1** is attached herewith pursuant to 37 CFR § 1.84. This replacement copy labels item 113 as "special device" rather than "special device hardware I/O". With this change, Figures 1 and 23 use the same terminology. This addresses the Examiner's rejection set forth on page 4 line 3 of the current Office Action as discussed further below in the Remarks section of this response.
